Objective

Motivated Front-End Developer with expertise in React.js and TypeScript, seeking to leverage my skills in building scalable, user-centric web applications to solve complex problems and contribute to a innovative team environment.

Internships & Experience

Frontend Developer, ISG Advertising and Media 10/2025 – 03/2026
Remote

- Developed and maintained frontend features using React.js.
- Built responsive and reusable UI components.
- Integrated RESTful APIs and collaborated with backend teams.
- Contributed to delivering production-ready web interfaces.

Frontend Developer, Freelance 06/2025 – 08/2026
Remote

- Engineered role-based dashboards (End-User, Vendor, Super Admin) with secure routing and access control.
- Implemented multi-language support (Arabic/English) using i18next to cater to a wider audience.
- Built reusable and responsive components (tables, modals, forms) to ensure consistency across the application.
- Collaborated effectively with a backend developer to integrate RESTful APIs and ensure seamless data flow.

Back End .net, DEPI (Digital Egypt Pioneers Initial) 10/2025 – 06/2026

- Core Development: Developed and maintained robust server-side applications using C#, ASP.NET Core Web API, and Entity Framework Core.
- Database Management: Designed and optimized relational database schemas using SQL Server, implementing complex queries, stored procedures, and indexing for better performance. AI & Tech: Leveraged Prompt Engineering and Java fundamentals for efficient test execution.
- Architecture & Patterns: Applied Clean Architecture and Repository Pattern to ensure code decoupling and testability.
- API Documentation: Integrated Swagger/OpenAPI for comprehensive API documentation and testing.
- Authentication & Security: Implemented secure authentication and authorization mechanisms using JWT (JSON Web Tokens) and ASP.NET Core Identity.

Education

Bachelor of Computer Science, Thebes Academy 10/2022 – 08/2026
Cairo

- Very Good

Technical Skills

Languages

JavaScript, TypeScript, PHP, C++, C#, SQL, HTML, CSS

Styling

Tailwind CSS, Bootstrap, SASS

Tools & Platforms

Git, GitHub, Firebase, REST APIs

Operating Systems

Windows, Linux (ubuntu)

Frameworks & Libraries

React.js, Next.js(App Router), Redux, Zustand, Tanstack Query(React Query) , React Table, React Router, Axios, Framer Motion, i18next, Material UI (MUI), JQuery

Databases

MySQL

Concepts

OOP, Data Structures, SOLID Principles, Responsive Design

Problem Solving

[Code Wars](#) [Code forces](#) [Hacker Rank](#)

Projects

Tashtiba Multi-Vendor E-commerce [🔗](#), *React.js | TypeScript | Tailwind CSS | React Query | i18next*

- Developed the frontend architecture for a multi-role (End-User, Vendor, Super Admin) platform, enabling vendors to manage stores and admins to oversee system operations.
- Engineered role-based routing and layouts to securely compartmentalize dashboards and functionalities.
- Implemented multi-language support (Arabic/English) using i18next, improving accessibility for a wider user base.
- Managed server state and caching efficiently using React Query, reducing API calls and enhancing performance.
- Built reusable components (tables, modals, forms) with Tailwind CSS for a consistent and responsive design.
- Collaborated with a backend developer to integrate RESTful APIs and ensure seamless data flow.

The Forge | Personal Portfolio & CMS [🔗](#), *Next.js | TypeScript | Tailwind CSS | Framer Motion | Admin Dashboard*

- Engineered a modern portfolio with a custom admin dashboard for real-time content management, enabling dynamic updates without deployment.
- Implemented CRUD operations for projects, skills, and articles, enhancing content flexibility.
- Leveraged Next.js App Router and server-side rendering for optimal performance and SEO.
- Enhanced UX with smooth animations using Framer Motion and responsive design with Tailwind CSS.
